1. TITLE OF THE PROJECT PROPOSAL

Quiz Game

2. PROBLEM DOMAIN & MOTIVATIONS

- The computerization of the Quiz Game will not only help Participants to improve their connectivity with digital systems but also improve efficiency. Also it will reduce human stress for checking the answer and give marks thereby indirectly improving human resources.
- To make the Exam system more efficient and effective.

3. OBJECTIVES/AIMS

- Our main aim of this project is to make it easier to attend Participants and check their answers instantly.
- Another main focus of this project is to lessen human efforts.
- provide a user friendly environment to the Participants.

4. TOOLS & TECHNOLOGIES

Quiz Game application is created using C Programming Language. This project is compiled in CodeBlocks.

- There are some options to add the name of the participants, add their id no.
- It displayed the answers of the participants with the correct answer and also displayed the result s/he got.

5. CONCLUSION

After we have completed the project we are sure the problems the existing system would overcome. The “Quiz game” process was made computerized to reduce human errors and to increase efficiency.
